I'm a competent junior frontend developer. I particularly enjoy AngularJS, Polymer, JQuery and am fascinated by UX design.

During my previous roles working with Wordpress, Drupal, social media and CRMs (e.g. Salesforce), I've acquired a broad range of experience and strengthened my HTML, CSS and JavaScript knowledge as well as gained an understanding in the fundamentals of PHP, Angular, Polymer, AJAX, JSON and Git.

I've loved my journey in becoming a frontend developer and would be thrilled to have an opportunity to develop my career further.

Core Competencies

- HTML, CSS, JavaScript, AngularJS, JQuery, Bootstrap, SASS, Polymer, Compass, Git version control
- Wireframing: Balsamiq, basic Axure
- Operating systems: Windows, iOS, Basic Linux commands
- Dev enviroment: XAMPP, Sublime, Terminal, Git, CyberDuck
- CMS/CRM's: Drupal, Wordpress - I tend to pick these up quickly, so what I don't know I can generally learn first time round
- An all round team player, I am capable of working to strict briefs and time constraints.
- Fluent English, Russian, Mandarin
